HARMONIZATION OF VEHICLE MISSION STANDARDS FOR THE EAC SUB-REGION

Principal Standards Officer
Email: sapolot
ROADMAP FOR HARMONIZATION

Background

- Harmonization at the EAC.
- Progress so far made.
  - committee drafts 1 on air emissions
  - stakeholder inputs from the UN Environment workshop
  - revised drafts update
Ongoing initiatives

• National level and agreed approach in harmonization;
• Tripartite under the Tripartite Transport and Transit Facilitation Programme (TTTFP);
• African Regional Standardization Organization (ARSO);
• Harmonization of the initiatives.
Key issues for consideration going forward

- Common approach in harmonization;
- Stakeholder engagement among others, environment and transport at policy and technical levels;
- Involvement to influence work under TTTFP and ARSO;
- Consideration of the available regulations under environment and transport to inform the standards
- Incorporation of comments from the 2nd UN meeting Circulation of drafts
Proposed Roadmap

• TC Secretary to incorporate all the comments from the 2\textsuperscript{nd} UN meeting and recirculate drafts by 30\textsuperscript{th} November;

• Partner States to undertake national consultation and submit comments by end of February 2020;
Proposed Roadmap cont’

- First Regional meeting to be held by March 2020;
- Harmonized standards to be approved by May 2020
- EAC TC members to participate and influence EAC position at TTTFP and ARSO.
- Thoughts on conformity assessment to support implementation
THANK YOU
