

# AFRICA NETWORK FOR WALKING AND CYCLING ANNUAL FORUM AGENDA

---

one billion reasons to act

TUE 12TH OCT - WED 13TH OCT 2021

ONLINE

# CONVENING FOR ACTION

More than a billion people walk or cycle for almost an hour every day in Africa - to reach work, home, school and other essential services. But Sub-Saharan Africa still has the highest per capita rate of road fatalities than any region in the world. Not to mention congestion, poor air quality and environmental impact.

The Africa Network for Walking and Cycling was launched in October 2020 and brings together 50 organisations with a common goal: to make the life of people who walk and cycle in Africa countries safer, healthier and more comfortable - through our combined action, expertise and influence.

The Network is hosting an **annual forum to provide a space for organisations and experts to convene and collaborate under the network common goal - with a focus on action; getting things done and changing the status quo.**

## FORUM SET UP

The forum will be take place from Tue 12 - Wed 13 Oct 2021 and is co-ordinated by the Africa Network for Walking and Cycling Lead Agency (UNEP) and Network Chair (Walk21 Foundation)

Over 2 days, 17 sessions will be hosted by expert organisations - all focused on action for walking and cycling in Africa and relevant to at-least one of our 11 forum tracks.

Organisations and individual practitioners are welcome to register for the forum and participate in as many or as few sessions as they wish. Please register [HERE](#). You are welcome to share this registration link with your networks.

Once you are registered you will receive a link to the detailed agenda with links to all of the sessions. Please diarise the sessions you wish to attend.

# FORUM TRACKS -all sessions support one or more

## Financing

Financing and investment for walking and cycling

## Research

Sharing research to influence practice

## Rural Mobility

Needs and solutions for rural areas

## Data

Data needs, findings and evidence sharing

## Global lense

Global initiatives with regional relevance

## Voices

Sharing from youth, children, women and other most vulnerable

## Innovation

Spotlight on innovative solutions, technology & digitalisation

## Public transport

Links between walking, cycling and public transport

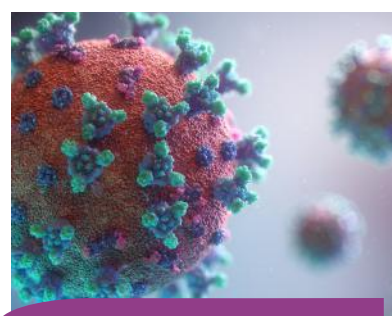

## Government

Government action, best practice and more

## Civil Society

civil society and NGO action, best practice and more

## COVID-19

Covid-19 related responses and opportunities, etc.
